

KINDLY  
GLASS & MIRROR

Qingdao Kangdeli Industrial & Trading Co.,Ltd

## Mirror Safety Backing Film

Advanced Safety Solutions for Glass & Mirror Industry

### **The Hidden Danger: Mirror Safety**

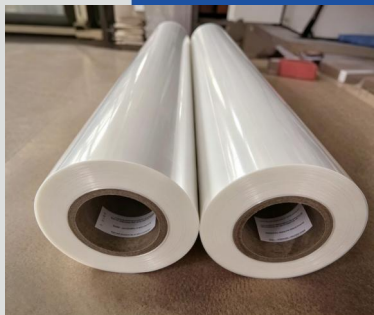

- Shattered glass poses high injury risks.
- Safety compliance demands for commercial & residential projects.
- Potential extra costs from disregarding safety standards.

### **Our Solution: Kindly Glass&Mirror Series**

We focus on manufacturing premium safety backing films for mirrors. Our products effectively boost safety performance of glass and mirror products across diverse scenarios.

We offer direct customized production, delivering stable and efficient supply support for your business.

- Full lineup of professional safety solutions
- Available in standard, high-performance and decorative grades
- Custom-engineered to satisfy varied project requirements

## Our Product Range:

### 1. CAT I (PE Material) - Basic Safety

#### \* Features:

High-adhesion plain polyethylene film. It binds broken mirror fragments to minimize injury hazards upon accidental breakage. Adopts high-performance acrylic pressure-sensitive adhesive, easy to unwind and firmly attach to mirror rear surface.

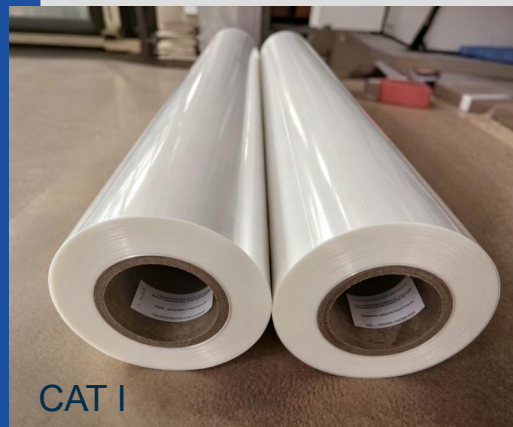

\*Compliant with ANSI Z97.1-1984 and AS/NZS 2208:1996 standards.

\***Thickness:** 130/150 microns, etc.

\***Roll size:** 369mm×200m, 629mm×200m, 1219mm×200m, etc.

#### \* Application:

Suitable for conventional safety use in households, offices and hotels.

### 2. CAT II (PE Woven Material) - High-Strength Protection

#### \* Features:

This woven polyethylene film features high tensile strength and impact resistance.

Equipped with premium acrylic adhesive, it locks broken fragments firmly to avoid personal injury.

\*Compliant with ANSI Z97.1-1984 standards.

\***Thickness:** 150 microns.

\***Roll size:** 369mm×200m, 629mm×200m, 1219mm×200m, etc.

#### \* Application:

Ideal for high-risk areas such as mirrored cabinet doors and commercial premises

### 3. PET Material - Clear & Safe

**\* Features:**

Constructed with premium PET substrate, functional nano coating and durable acrylic adhesive.

Boasts outstanding light transmittance, presenting an almost invisible look after pasting.

It reinforces glass and mirrors, and secures fragments effectively in case of breakage.

**\*Thickness:** 70/100/200 microns, etc.

**\*Application:**

Well-suited high-end design projects, retail displays, and luxury interior decoration.

To help you make an informed decision, here's a quick comparison of our safety Backing films:

Feature	CAT I (PE)	CAT II (PE Woven)	PET
<b>Primary Function</b>	Basic safety, fragment retention	High-impact resistance, shatter-sealing	Aesthetic clarity with safety
<b>Best For</b>	General residential/office use	Commercial/high-risk areas	High-end design, retail scenarios
<b>Visibility</b>	Standard	Standard	Virtually invisible
<b>Key Standard</b>	ANSI Z97.1-1984 / AS/ NZS 2208:1996	ANSI Z97.1-1984	Optical clarity standards
<b>Thickness Options</b>	130µm, 210µm, 260µm	150µm	70µm, 100µm, 200µm

Reference price:

<b>CAT I PE 260microns</b>					0.85		
<b>CAT II PE Woven 150microns</b>					0.61		

\* This price valid until June 30, 2026.

### Why Choose Us?

- Direct Manufacturer:  
Independent production enables strict quality control and favorable prices.
- Standard Compliance:  
Products conform to international safety certifications of ANSI and AS/NZS.
- Customized Service:  
Multiple thicknesses and dimensions available to match personalized demands.
